

# AKLAND HAS POPULATION OF 100,000.

## Real Estate Men Expect to Have a Lively Winter Market.

The realty market, during the past week, has been characterized by unusual activity, considering the fact that the rainy season has opened. Usually, October is considered one of the most liberal of all the months in what is known as the "good season" in the realty world, but, this year, the business transacted by almost every dealer in real estate in the city has greatly exceeded that of any previous October, excepting, of course, in what was known as "boom times."

There has been no suggestion of a "boom," however, and there is no disposition on the part of dealers to encourage such an idea, because they well know the disastrous consequences which follow such misguided impulses.

**SALES AND INQUIRIES.**  
The activity, both in sales and in inquiry for certain kinds of property, is purely practical. Where property is sought for speculative purposes, the seeker has both the means and the good sense to wait until a more favorable moment arrives for its disposal. The inquiry for homes is made, in the greater number of cases, by the city and the suburbs, and the same by host of new comers, who have been attracted here from all parts of the country. As a rule, these new residents are provided with means to purchase comfortable abiding places, though some, of course, prefer to rent houses to others, until they become acquainted with the city and the features which it offers as most desirable to them for home surroundings.

**HOUSE FAMINE.**  
In this respect, it is the experience of realty dealers that the demand in each case is greater than the supply. This is true, despite the fact that new houses are in course of erection every day and many of these are rented or sold before they are completed.

**CARRIERS OBSERVANT.**  
Another way of getting an idea of how the population of Oakland is increasing is suggested by a little circumstance which occurred a few days ago. It will be remembered that the local post office was allowed its more letter carrying capacity by the postmaster for the purpose of enabling the postmaster to handle the enormous increase in the mail matter passing through the local post office. The increase asked for was ten carriers, but only half that number was allowed. This was a case of "too late" for nothing, but, in the post office, it was known it would afford only partial relief.

Yesterday, a letter carrier in the outlying section, was asked by a citizen as to what was the effect of the increase in the number of carriers. "We really don't realize it. The way people are coming here to live is astonishing," he said as they did before the increase. No person who has not to travel around among the people can get any idea of the

# WANT TO RAISE THE DUES.

## BARBERS' UNION WANTS HIGHER DUES AND LARGER SICK BENEFITS.

At the meeting of the Barbers' Union this evening the proposition of raising the monthly dues to a dollar will be brought up for discussion. It is desired to increase the monthly sick benefit allowance from \$5 to \$10. The dues are at present 75 cents per month and the international union allows \$5 each month for sickness. The extra 25 cents will provide a fund in the treasury of the local organization for an additional sick benefit allowance of \$5.

The backers of the move argue that any ordinary lodge gives only a \$7.50 sick benefit for \$1.00 monthly dues, while with the same assessment the barbers will get \$25.00 more, and the protection of the union besides. It is believed that the measure will carry, as most of the members of the local seem to be in favor of it.

Three new members will be initiated into the union.

**CARPENTERS SPECIAL MEETING.**  
A special meeting of local No. 35, Carpenters and Joiners of America, will be held this evening to take action on the death of O. B. House, a well known member of the local union.

The deceased passed away last evening at his home on the corner of Allison Way and Louisa street, Berkeley. The District Council of Carpenters will meet this evening at California Hall, 1015 Clay street.

**MEETINGS TONIGHT.**

The Stabblers and Butchers will hold sessions this evening at Cooks and Walters' headquarters, Broadway and Eighth street; the Barbers and District Council of Carpenters at California Hall, 1015 Clay street; the Teamsters, Local No. 36, at 855 Webster street; the new Central Labor Body and the Wagonmakers at Kohler and Chase hall, Eleventh street and Broadway; the Retail Clerks at Fraternal hall, Washington street.

**LABOR COUNCIL IGNORES MEETING.**

At a meeting of the Labor Council of San Francisco it was resolved that the Council should not recognize or take part in the proposed meeting to be held next Thursday evening at the Alhambra Theatre, the announced purpose of which is the bringing of labor disputes to a settlement by means of arbitration. The proposed mass meeting was arranged by F. H. Scullin, a Carpenter of Seattle, who is president of the Council of Carpenters and also refused to sanction or endorse Mr. Scullin's plan of compulsory arbitration and will not participate in the meeting next Thursday.

M. W. Coffey, president of the Hackmen's Union, was elected vice president of the Council to fill a vacancy caused by the resignation of Vice President J. O. Walsh.

**POLISHERS' BALL.**  
The fifth annual ball of Varnishers and Polishers' Union, No. 134, at the City Hall, San Francisco, Saturday night, proved to be a very pleasant affair. There was a large attendance and the decorations were elaborate, consisting of bunting and evergreens. The success of the function was due to the following committee: District Byron (chairman), C. M. Haybi, J. C. Patterson, S. T. Arnold and Harry Cunningham. W. T. Mansfield was floor director.

**LABOR DEBATE.**  
"How Best to Harmonize Capital and Labor" will be the question debated by the Men's Club of the First Congregational Church at its monthly meeting, to be held Tuesday evening, November 17, in the parlors of the church, Post and Mason streets, San Francisco.

Dr. J. H. Brown, president of the Dryden's Association, and Patrick Scullin, member of the Carpenters' Union, will represent the sides of capital and labor, respectively, in a friendly discussion on the subject.

**CLERKS.**

Several new members will be initiated by the butchers tonight and further arrangements will be made for the ball to be held in February.

At tonight's meeting of the retail clerks, the question of holding the meetings hereafter in the larger room of Fraternal Hall will be discussed. The present room is too small to give a satisfactory functions in which the union intends to make a prominent feature this winter.

**RETURNED FROM MEETING.**  
Business Agent J. B. Bowen, President of the Building Trades Council, returned from the executive committee of the Building Trades Council, held at Petaluma yesterday. Routine business was transacted. Mr. Pratt went as proxy for William Scullin, the painter, who was ill and unable to attend.

Secretary French of the committee returned from Oakland and the delegates. Mr. French was a delegate to the New York convention, where the case of Business Agent Parks, now in Sing Sing Prison for accepting a bribe, attracted such wide-spread attention.

**ORGANIZED NEW UNION.**  
Secretary Pratt and Business Agent Bowen organized a roofing material-making union at the home of Mr. F. H. Scullin, last evening. The men are principally employed by the P. B. Roofing Company and the Electric Roofing Company. About 25 members were organized. The sessions of the union will be held Wednesday evenings in Kohler and Chase Hall, Broadway and Eleventh street.

**CENTRAL LABOR BODY.**  
The classification committee of the new Central Labor Council will meet this afternoon and draw up a report to be presented at the meeting of the main body tonight.

**TEAMSTERS.**  
The members of the Teamsters' Union, Local No. 70, enjoyed themselves at a banquet in California Hall Saturday evening. Speeches were made by Secretary Robert Smith, Business Agent Frank Ingura and others. Vocal and instrumental musical selections were rendered by several members of the organization, and the time passed very pleasantly. Refreshments were served.

The business session of the union will be held tonight at 855 Webster street. The matter of securing a new meeting place will be discussed.

**LABOR NOTES.**  
Machine shop moulder at Quinby, Ill., have asked for a nine-hour day and an increase of 25 cents a day. The machine shop moulder question will be "passed up" to the respective presidents of the Slove Foundrymen's National Defense Association and the Iron Moulders' International Union for settlement.

Every minor smelterman and mill worker in Colorado will strike if necessary to enforce the eight-hour work day. In order to obtain the eight-hour day in the mines, smelters and quartz mills the strike will be extended to all employees in these occupations in the State.

# MISS ETHEL JOHNSON IS ENGAGED.

MISS ETHEL JOHNSON.

Mr. and Mrs. F. J. Johnson of 1721 Market street, announce the engagement of their daughter, Ethel, to Frank Marion Dunn. The bride-to-be has been head bookkeeper for the firm of Jeffreys & Johnson for the past two years, and the prospective groom is associated with the United States Glass Company. Both have a host of friends in Oakland. The wedding day is set for the 26th inst., Thanksgiving Day.

promised to 20,000 men by the big Chicago packing companies in condition that the packers be guaranteed freedom from labor troubles, and the union leaders have set themselves to demonstrate their ability to stop turmoil wherever their organization controls the workers.

The Amalgamated Association of Iron, Steel and Tinworkers limits the amount of production of the steel which it has control in accordance with the amount of work it believes its men are capable of performing. The packers are about 420 sheets in eight hours, which they consider a fair day's work.

The request of the union independent sheet manufacturers that the limit of production be taken off their mills has not been granted by the packers. The packers of the sheet steel workers, which was called especially to take up the question, announced that the working conditions would remain the same as before.

After warring in factious for a number of years, during which period the trade has become badly demoralized, the Independent Window Glass Workers, the Federated Window Glass Workers and the Window Glass Workers' Association of America have come together, settled their differences, and agreed upon a wage scale.

**LORD KITCHENER SERIOUSLY HURT**  
SIMLA, India, November 16.—Lord Kitchener, Commander-in-Chief of the British forces in India, has met with a serious accident while riding home alone from a country house near here. As he was passing through a tunnel, his horse became frightened and, colliding with the wall on the left side, Lord Kitchener's legs were broken in two places.

Some time afterward coolies passing through the tunnel found the commander-in-chief lying there helpless and brought him to Simla. He is now reported to be doing well.

**BAD HABITS.**  
Improper Food Often Leads to Tobacco and Drink.

Improper food creates abnormal tastes and there are many cases on the medical records where the liquor habit and tobacco habit have been caused by wrong food and have easily been cured by the use of the scientific food Grape-Nuts which so thoroughly nourishes and rebuilds the nerves that they stop the cry for stimulants.

A business man says: "For thirty years I smoked on an average of ten to fifteen cigars a day and then my nervous system collapsed and I had about made up my mind that it was all up with me for I had tried many times to break off from the tobacco but it always failed."

"Last May I was so run down I only weighed 111 pounds and I realized that I must stop smoking and stuck to it for about ten days but was so nervous and out of sorts my family told me I had better go back to smoking as it was impossible to live with me. It was just about this time my wife brought a package of Grape-Nuts on the table one morning and as I could eat nothing else she induced me to try a teaspoonful of it and strange to say it tasted good and by the time I had it down I knew it had gone to the right spot so I took some more and it was the first food I had relished for weeks."

"So I kept up the use of Grape-Nuts and as my appetite came back added other foods and I am now back to my old weight of 133 pounds, never felt better in my life and strange as it may seem I have no further craving for the tobacco and I thoroughly believe that only the courage and ambition I got out of the food Grape-Nuts has given me the strength to quit smoking. If everyone knew the power of this wonderful food you would not be able to build a factory big enough to supply it." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Look in each package for a copy of the famous little book, "The Road to Wellville."

# ABRAHAMSON'S

OAKLAND'S MOST POPULAR STORE

## CLOAKS AND SUITS

All Wool American Kersey Box Jacket; elegantly stitched; inlaid velvet collar; a good \$10.00 value. Castor only.  
**Special \$6.50**

# ROASTS PARENTS FOR NEGLECT.

Vivian Duncan, a 12-year-old youngster, was arrested last night for preferring a shed as a sleeping place to a comfortable bed. With him was William Ernest, 10 years old, who was also brought in. Sentence will be pronounced tomorrow morning, both of the boys being let go on their own recognizances. Vivian was given a talking to personally, no one appearing to need him.

# REV. WALK'S CHILD IS KILLED.

SAN FRANCISCO, November 15.—Friends of Rev. and Mrs. George Edwards Walk in this city will be grieved to learn of the violent death of their eight-year-old daughter, Amie. While her parents were preparing for their move from Council Bluffs to Cedar Rapids where Mr. Walk had accepted a call, the little girl was visiting J. H. Thompson, a relative in Mineola, Kansas. She was riding a pet pony, from which she was thrown and instantly killed. The funeral of the child was from Grace Church, Cedar Rapids, of which Mr. Walk was formerly assistant pastor at St. John's Church in Oakland.

# All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them. They litter the whole system. Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

# Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system. "I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it did it. The humors. I continued its use till the sores disappeared." Mrs. I. A. Brown, Rumford Falls, Me. Hood's Sarsaparilla promises to cure and keeps the promise.

## OAKLAND TRIBUNE

Tribune Publishing Company.

William E. Dargie, President.

## THE INDIAN AGENCY CRIME.

The present clash between a government Indian agent and the State authorities of Wyoming over the alleged violation of the State game laws by agency Indians points attention to a system that has existed for nearly a hundred years without accomplishing any good.

The agency system enabled white settlers to get the lands of the Indians and operated as a protection to the frontier, but it has been fruitful of frauds and scandals, which have in turn caused the Indians to go on the warpath to avenge their grievances.

Until quite recently it was the custom of Indian agents to get rich in a few years. By collusion with contractors the wards of the government were systematically robbed. Because of this, war in its most savage form repeatedly flamed along the frontier. The scheme devised for the protection of settlers thus became a frequent menace.

But the agency system was never intended to benefit the Indian, and it never has. It has never taught him habits of thrift and industry. It has deprived him of his hunting grounds and his manhood at the same time. It has made him a mendicant and a vagabond. He took to the white man's fire water more readily than he did to the white man's learning. The whites with whom Indians were thrown in contact at the agencies were not examples of either sobriety, virtue or honesty. They cheated the Indians out of their furs and their rations and blankets issued by the government, and corrupted the women of the tribes. They introduced diseases with sexual vices and drunkenness.

In the main, the Indian children sent away to school in the East returned unfitted for the life of an Indian and unequipped for the struggle in civilized society. They were educated only enough to enable them to discern the degradation of their people and the hopelessness of their own lot. For the most part they became miserable hangers-on on the outskirts of frontier society, or fomenters of violence among the Indians. The leader of the band that fought the officers in Wyoming is a graduate of Carlisle.

Why does the Government continue to maintain a system that is now without its original excuse, but which debases the Indians beyond hope of redemption? Justice and humanity demand that the Government should not cast off and abandon the people whose lands it has confiscated, and whose primitive virtues it has destroyed, but humane policy suggests that the agency system be abolished, and some more enlightened plan of dealing with the Indians devised. No matter at what cost, the government should endeavor to regenerate its unhappy wards by making them self-respecting and self-supporting. Surely some way can be found to teach the Indians habits of independence, industry and thrift. Here is a task that appeals to the conscience, the sense of justice, and the righteous sentiment of the nation.

Chicago University's pronouncement against Thanksgiving football is a presumptuous, a pious offset to the recent advance of two cents a gallon in the price of Standard oil.

Canada and Colombia can now exchange condolences.

## HAWAIIAN SUGAR PRODUCTION.

The government report on the sugar production in Hawaii does not indicate that the labor situation in the islands is as bad as the planters have been representing. For some time they have been protesting that the sugar industry is threatened with disaster unless they are allowed to import Chinese labor, but the production this year eclipses all former records. In 1893 Hawaii produced 341,871,040 pounds of sugar, and exported 350,822,879 pounds. This year the production reaches 840,000,000 pounds, and the exportation for the year ending June 30th reached the grand total of 774,825,420 pounds. The value of the agricultural products of Hawaii exceed in value the production of any other equal population and any equal extent of territory in the United States, if not in the world. There are not above 60,000 people in Hawaii actually engaged in the production of sugar, but they give a product worth above \$10,000,000. Instead of spelling ruin it has all the look of prosperity with a big P.

Hawaii now stands third in the list of sugar exporting sections. Cuba being first and Java second. During the past thirty years sugar production in the islands has increased faster than the production of cane sugar in any other part of the world. This is a remarkable showing, and one that fully explains why so many large fortunes have been amassed in sugar-growing in Hawaii. It is noteworthy that more than one-half the sugar produced in the islands is the result of irrigation. Nowhere else have the mechanical appliances for growing, handling and reducing cane reached such perfection as in Hawaii.

## SPEAKER OR DICTATOR.

The Sacramento Union seems to think the Speaker should dominate the House instead of being its mouthpiece and presiding officer. Thomas B. Reed, the leonine statesman from Maine, is the Union's ideal of a presiding officer for a legislative body, a man who rode rough-shod over the majority and the rights of the minority.

If the theory that the House needs a dictator instead of a presiding officer to maintain order and sequence, according to rule, its deliberations, the Union is right. If the Speaker is to be the servant of the House and not its master, our Sacramento contemporary is wrong.

The House has never had but one czar, and is not likely to ever have another. The three great Speakers of Congress prior to Mr. Reed's appearance on the stage with his domineering temper and his autocratic assumption that the House was a school and he the master selected to control it and teach it its business, were Henry Clay, James G. Blaine and John G. Carlisle. None of these ever attempted to make the house and its rules subservient to his ideas and wishes. And he would be a bold man who would say Mr. Reed excelled either of the three in ability and force of character. A man does not have to be a despot to prove his ability or his worth.

Says the Union: "Both the President and the Senate were powerless in the fact of a positive Speaker, and when Reed laid down the gavel it was determined by general consent that a weaker type of man should succeed him. Hence the election of Mr. Henderson, an inoffensive, docile, rather dull man, of no special talents, with no very strong hold upon his personal constituency, and with nothing of the personal initiative, resolution and force which gave character and distinction to the Reed Speakership."

Mr. Henderson was neither a dull nor a docile man, but his conception of the powers and duties of a Speaker was entirely different from that exemplified by Mr. Reed. What business has a Speaker rendering powerless the President and Senate, and gazing at the body over which he presides?

The Union says Mr. Cannon is "narrow, intense, sincere, patriotic and absolutely honest," but "can be counted upon to subordinate his personal purposes to the interests of the party and at the discretion of the party managers." By party the Union probably refers to the Republican majority in the House. What else was he elected for? Is he to set up his "personal purposes" above the will of the majority that is constitutionally invested with the responsibility for legislation?

Mr. Reed was an able, honest man of singular talents and vast force, but his methods would never have been tolerated save for an extraordinary condition which made the Republican majority powerless to accomplish its own ends. His action in beating down and riding over the obstreperous Democratic minority was approved, but it established a precedent that was used to override the majority as well as the minority. Had Mr. Reed continued in Congress up to this time, he would undoubtedly have been deposed from the Speakership. The limit of his rule had been reached, and none knew it better than he. The country absolutely would not brook a man defiantly saying to both houses of Congress, "You shall legislate thus and so, and not otherwise." In a legislative sense he was the state. His domination is the most remarkable incident in our legislative history. Its like will hardly be seen again.

With his passing the House resumed control over its own business, and has once more become a deliberative body—not a packed convention blindly obeying the commands of a boss. Mr. Reed legislated, but the House now legislates.

The people and the press of Alameda agree with cordial unanimity in seconding the project for improving Oakland harbor. It is a project as important to Alameda as it is to Oakland, and is one that should not be neglected or side-tracked. On this head the Alameda Argus well says:

"The deepening of Oakland Harbor is imperative, if the waterway is to attain the importance it is naturally designed and certainly should attain. It is important to Alameda, as well as to Oakland. This town in the near future is bound to come to the front along Oakland Harbor. The tendencies are very apparent, and there would be an accelerated movement if the water was deep so there would be no question of ships coming up the creek to discharge."

Congressman Livernash's attempt to make the Panama revolution a question of personal privilege indicates that he is on the verge of an international crisis.

Colombia is receiving encouragement from the Democrats in Washington to kick up a row on the isthmus. As usual the mugwump journals are shouting that the country is being disgraced. They raised the same cry when Cleveland sent in his Venezuela

message, and again at the time of the Spanish war. They have never ceased to revile the administration for suppressing the Philippine insurrection. They seem to find a delight in picturing their own country as being in the wrong every time a foreign complication arises. They are the kind of supreme patriots who always give aid and comfort to the enemy.

The hissing of the American flag in an Ottawa theater proves that the Canadians are still sore over the Alaska boundary award. That their anger against the mother country is not very deep is evidenced by the cheers given the Union Jack, which was brought in to quiet the demonstration against the Stars and Stripes. Canadian loyalty is still stout enough to stand a good many more kicks from Great Britain.

The parties to the shipyard trust controversy may be classified as the "squeezers" and the "geezerers." It is not necessary to state who got cinched.

A California man has gone the Kentuckian who married his stepmother one better. Henry Drals of Farmington has married his step-grandmother.

## Chips From Other Blocks

A Brooklyn pastor announces that there have been no marriages in his congregation for thirteen years. President Roosevelt should make a speech of race suicide in the neighborhood.—Philadelphia Inquirer.

St. Louis has fed upon the meat of ex-position notoriety until she has grown so great that she would think nothing of using the battleship Missouri as a ferry-boat during the great fair.—Chicago Tribune.

As Senator William M. Stewart was born in 1827, it is easy to calculate his age and just as easy to understand that his new bride believes in the men of 78.—Spokane Review.

In France the death rate in the last year has exceeded the birth rate by 25-388. There would be some justification now if President Loubet should take up the peril of race suicide.—Kansas City Times.

No calamity has yet followed upon that operation upon Emperor William's throat. The accounts do not say that he has been deprived of the powers of speech.—Memphis Scimitar.

An Indiana woman dropped dead in a bargain-counter rush. There would not be room to drop at a New York bargain-counter.—New York World.

A Massachusetts man has invented a rifle with a range of ten miles. What the chivalry of the times demands is a gun that will shoot around a corner.—San Francisco News Letter.

King Peter of Servia is unable to insure his life. The insurance companies probably demand cash premiums.—Los Angeles Express.

As another step toward the evacuation of Manchuria, Russia has reoccupied the guardhouse at Mukden, which shows that where Russia is concerned the expected is just as likely to happen as the unexpected.—Indianapolis News.

Inasmuch as department stores and other business houses all over the country have uniformed office boys, the putting of White House employees into uniforms may possibly not mean the downfall of the republic.—Kansas City Journal.

The Sultan gives assurances that the Macedonian uprising has been entirely suppressed. He must feel sorry that he did not secure the services of an American press agent long ago.—Kansas City Star.

Letter, the Chicago "cornerist," claims that his partner "squeezed" him. In these matters the "squeezers" does not seem to like it any better than other people when it comes his turn to be "squeezed."—Boston Transcript.

## SOME PASSING JESTS.

Teacher—Tommy, next time you are late bring an excuse from your father.

Tommy—Who? Father? Why, he ain't no good at excuses. Ma always finds him out.—Truth Seeker.

"How did he ever get money enough to ride around in an automobile?"

"He was a walking delegate for two years."—Chicago Record-Herald.

"You claim to have a well-governed city."

"I should say so," answered the machine politician. "Nobody dares do anything without permission from the boss."—Washington Star.

Helen—What did Estelle want?

Lillian—Oh, she wanted me to listen to her talk for about three hours.—Detroit Free Press.

"Why do so many of you go around playing together?" asked the citizen of the leader of the German band.

"It was safer," was the thoughtful reply of the Teuton.—Yonkers Statesman.

GREAT SPORT.

"By Jove!" said the tall youth in the whipcord coat. "I have won the favor of your parents."

"Stupid!" exclaimed the girl with the golden leaves on her hat. "Why couldn't you let them be opposed to you?"

"Opposed! What for, pray?"

"Why, then we could have an excuse to clope. It's so much more fun, you know."—Chicago News.

## HINTS FOR THE LADIES

A costly but lovely brooch is in the form of a butterfly, made of diamonds, emeralds and rubies.

Toast racks are to be had in pretty decorated china and also in plated and sterling silver.

Very cunning are the small and mannish looking street gloves of kid that are intended for the small folks.

Turkey bonbon boxes are appearing at the confectioners' and are typical of the coming Thanksgiving festival.

A hunting dog holds in his mouth instead of a bird a small fanciful thermometer, this ornament being intended for desk use.

A sale of water pitchers that look like cut glass attracts many shoppers. These pitchers are to be purchased for the insignificant sum of a quarter.

A Chinese novelty is a string of perforated beads that are curiously carved. They smell suspiciously like sandal wood, and are said to retain their perfume forever.

In royal Dresden comes a pretty china set in a single rose pattern. In the greater number of pieces is a single rose in the center, with small rosebuds around the edge.

Chinese gongs for dinner bells are modish, and are shown in several different and costly styles. One rather unique is an octave of coppered chimes on a wrought iron stand.

Darning implements are much in evidence these days, and one costly stocking darning is of ivory with a fancy handle. Others come in sterling silver, aluminum, nickel, plated gilt and celluloid.

Very beautiful are the tall, quaint Dutch clocks in Flemish oak. They are simple and stately in design, and being open on three sides show the heavy weights, the winding chain and great brass pendulum.

A pine apple snip is made on the lines of a pair of scissors. There is a small scoop in one end and a loop with a sharpened edge on the other, and these two being brought together cut the piece of pineapple out clean and clear.

Two small folk in knickerbockers and short skirts kissing beneath a huge sunbonnet worn by the small maiden decorate one of the new pillow covers, and is to be outlined. Beneath in black silk is worked the single sentence, "Isn't it nice?"

For the use of small folk are some handsome toilet sets in porcelain consisting of a wash basin, water pitcher, soap dish and other necessary accessories that is placed on a small stand just high enough to suit very small folk still in the nurse's.

## POINTED PARAGRAPHS.

Pessimists thrive on disappointments.

Love is the only sure cure for feminine coquetry.

Dishonesty has passed the limit when a man cheats at solitaire.

Probably the mule licks because his owner doesn't use a steam plow.

A man's happiness may depend upon the load he is capable of carrying.

A quiet little game is one in which money does nearly all the talking.

England may be the mother country, but the United States seems to be the father-in-law country.

A man refuses to believe that a girl knows how to kiss unless he has it direct from her own lips.

It's as difficult to convince a stubborn man as it is to fatten a windmill by running corn through it.

Down in Panama a woman doesn't cut much of a figure in society unless she is the daughter of at least fifteen or twenty revolutions.—Chicago News.

## BILL AT LEWEY.

Yesterday afternoon the James Keane Company commenced its second week at the New Dewey Theatre with the presentation of "Under Two Flags," which is to run all week, and is greeted with a well-filled house.

At the evening performance the theatre was packed and the management was compelled to turn many away because of the lack of space to accommodate them. The big attendance at both performances yesterday plainly indicated that the war drama has found none of its popularity and that Mr. Keane's work is appreciated.

One of the features of the play as presented by Mr. Keane is the elaborate scenery. "Under Two Flags" is not new to Oakland but it is doubtful if it has ever been so well staged as it is by this company. There are many changes of scenes and with a small army of shifters, he changes are quickly made.

Mr. Keane, as Bertie Cecil, was a decided success and was accorded a big hand upon his first entrance. He is a clever and versatile actor and his popularity has been increasing with rapid strides as the audience became better acquainted with him and his work. Miss Browne made a capital Cigarette. Her role last week as the Princess was one of quiet sedateness while as Cigarette she is a vivacious, if not a bit of a flirt.

## KAHN'S—THE ALWAYS BUSY CORNER

## Special Announcement

As you no doubt know, a fire occurred in our establishment early Friday morning. Very fortunately for us the damage was confined to but a few departments.

The DRAPERY and MILLINERY Departments suffered considerable loss, some of the stock being entirely destroyed.

The DOMESTIC Department received the brunt of the hose—water being the principal damage.

We have made a final settlement with the insurance adjusters, and goods will be sold at very low figures, but we are too busy to quote prices tonight.

**Kahn Bros**  
THE ALWAYS BUSY STORE

Twelfth Street, Toward Washington, Oakland

was a splendid opportunity to show her versatility and she did it in a most acceptable way. The balance of the company were well cast.

"Under Two Flags" will be played all this week with a matinee on Saturday afternoon. It is well played and should draw packed houses every evening. Next week, beginning with the Sunday matinee, an elaborate production of "Quo Vadis" will be presented.

H. Schellhaus would like to see you.

## That Word MAN Means a Great Deal

Nobody likes it to be said of them that they are not a man—mentally, morally or physically. Yet we are bound to admit that a great many people are among us who cannot lay claim to being a man in all that the word implies. So often does the mental depend on the physical, that it is safe to say that half the weak-minded people in the world today are so because of physical weakness, either self-contracted or hereditary.

All men would like to have a grand physique which the old sculptors and painters gave to Adam. All women figure and the perfect health that is would like to possess the beautiful apparent in all that has been handed down to us regarding Eve. This is not only natural, but it is right.

There is no reason why this happy suggestion should not take the form of facts. It is within the power of everybody to acquire perfect health and reasonably speaking, perfect bodies. By building up flesh and blood, the nerve tissues and muscles, the delicate tissues of the brain are re-created and strengthened. This is being done for thousands of people today by the use of Maltol, which contains all that is good and agreeable in that great natural food, cod-liver oil together with other ingredients which the experience of centuries has taught mankind are the foundation of robust men and women. Maltol is different from many other strength foods of its kind, in that it built itself up without the use of advertising and only after its reputation was fully established did its proprietors exploit in the public prints its many good qualities.

The sole agents for this locality are Osgood Bros. at Seventh and Broadway, who have cut the price from \$1.10 to \$1.00 in accordance with the regular method of sharing profits with customers.

FOUND BODY

IN THE WATER.

The body of George A. Buzacott, an

employee of the Spring Valley Water

Company at Newark, was found near

Dumbarton Point yesterday afternoon.

On November 6 he started with two of

officials of the water company in a

launch to cross the bay. They had

gone but a short distance when the

machinery of the launch broke down

and Buzacott, after taking his passen-

gers ashore in a small boat, returned

for the launch. Just what happened

is not known, but neither Buzacott

nor the launch were seen afterward.

The body has been taken in charge by

Deputy Coroner Francis of Centerville

and an inquest will be held on Wednesday

afternoon at that place. Buzacott was

a native of Australia and 41 years of

age. He leaves a wife and several

small children.

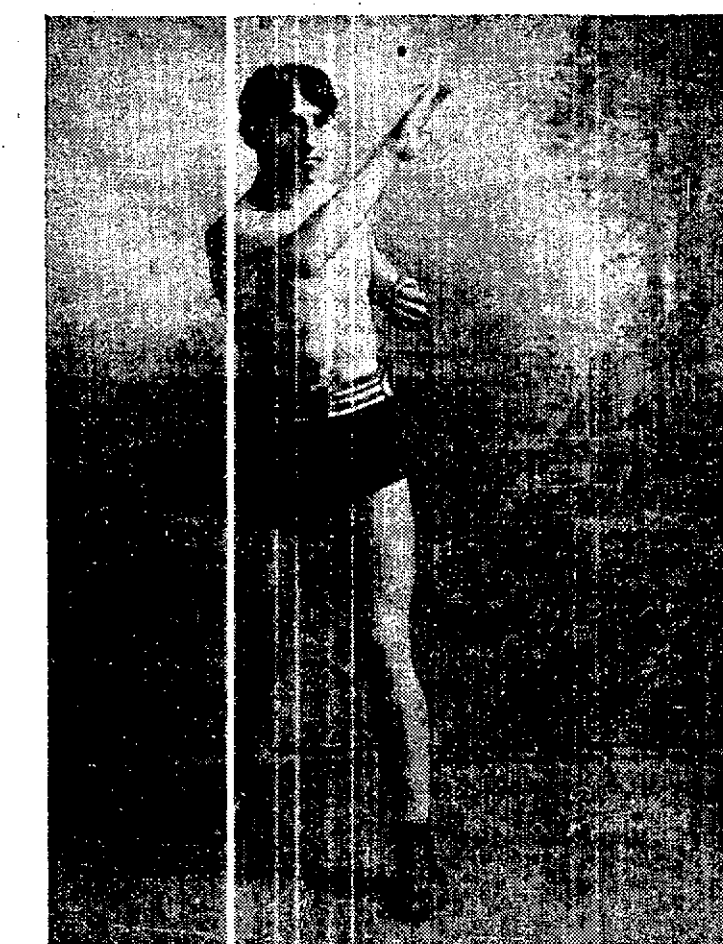

RAOING BASEBALL FOOTBALL.

SPORTING NEWS.

BOXING ATHLETICS GOSSIP.

AURELIA HERRERA, WHO WILL MEET JACK CORDELL TOMORROW NIGHT.

JACK CORDELL, WHO FIGHTS AT THE RELIANCE CLUB TOMORROW NIGHT.

ARE ALL READY GAME WAS AN IT WAS A BIG ONLY ONE GAME FOR FIGHT. EVEN ONE. SURPRISE. YESTERDAY.

HERRERA AND CORDELL ARE IN BOTH TEAMS PLAYED GOOD AND THE PINK OF CON. BAD FOOTBALL AT DITION. TIMES.

Jack Cordell and Aurelia Herrera have finished their training for their fight before the Reliance Club tomorrow evening and are all ready for the call of time by Referee Eddie Smith. Both of them are in the best possible shape and confident of their chances to win. The fans are highly enthused over the prospects of seeing a great fight and will be on hand in great numbers.

From all appearances the boxing entertainment to be given tomorrow evening will surpass any that has been given in Oakland for some time past. Not only is the main event an attractive one but the second preliminary, a ten-round bout between Monte Attell is an extra good one.

"Bud" Wade, a local boxer, will meet George Root in the first preliminary and the boys will go it for four rounds. It is expected that the bout will be a very good one. Taken all in all the program is an excellent one and the fight fans will get more than their money's worth.

There has been some comments passed on the main event to the effect that Cordell is outclassed and will not be able to put up any kind of a fight against the Mexican. Cordell has seen fit to make public refutation of the remarks. While Herrera has beaten a number of good ones still he is not such a wonder that the San Francisco boy will not have a chance. It is rather the opposite and he has a good chance of winning. The two are evenly matched as far as abilities go and the contest will be an extra good one.

LOUIE LONG BEAT HERMAN.

OAKLAND FEATHER WEIGHT WAS TOO GOOD FOR HIS OPPONENT.

Louie Long, the clever Oakland featherweight met and defeated Tommy Herman of San Francisco at Marysville last Saturday evening. The contest was scheduled to go twenty rounds but was ended in the eleventh by Herman's seconds throwing up the sponge. Herman fought a clever battle but was no match for Long and the action of his seconds only saved him from unnecessary punishment. Long was the heavier of the two and administered terrific punishment to Herman. The latter was game to the core and took it without flinching. After eleven rounds of it his seconds saw that it was useless to continue the fight as their man had no show at all against the clever Long and so threw up the sponge. The contest was witnessed by a large crowd.

STARS ARE WINNERS. The Alice Street Stars beat the invincible Oakland Juniors by the score of 9 to 8 in one of the closest games of the season. The features of the game were the batting of Brown and the fielding of Herkinhan and Shimp for the winners. Jacobs played winning ball for the losers. The Alice Street Stars would like to hear from the Abrahamson Juniors.

COULD NOT BE GOOD. Clifford Brown, a small boy, was arrested July 3 for stealing \$7 from a Mr. Hillwood on the 18th of June, and has been out on probation since that time. He couldn't be good, so he was brought in for sleeping out, in violation of the ordinance, and the case was continued until the 18th for sentence and Detective Shroy directed to apply in the meantime to the District Attorney for his commitment to the probation officer or the reform school.

EONIC CAPTURING HANDICAP WAS TOTALLY UNEXPECTED —TRACK NOTES.

The biggest surprise of the day at Emeryville on Saturday was the winning of the opening handicap by Eonic. The mare was not thought of much, and at one time she went beggared in the betting ring at 25 to 1 and closed at 15 to 1. Kenilworth was fancied in the most and he closed at 5 to 2, but Jockey's speedy horse was never better than a poor third.

Schwab took the lead from the start and kept it to the half with Eonic a scant length behind. At the half mile post Eonic took the lead and was never headed afterwards, winning with comparative ease in the good time of 2:45 1/2. Jockey Chandler handled Eonic with very good judgment.

Another big surprise was the win of Galambus in the third race. The gelding opened in the betting at 7 to 1 and as no one favored him he closed at 10 to 1, at which he closed. Galambus got off nearly last, but moved forward very quickly, taking the lead in the stretch and winning by 2 1/2 lengths.

In the fifth race Burna Burton, Episcure and John A. Scott were the choice of the talent and they closed at about 11 to 6. Ferrell put up a grand ride on Burton and landed the mare an easy winner by the length. The 1 1/2 race went to Fossit, Ferrell up in a style. Fossit carried most of the money and his winning justified the confidence of the talent.

Jockey Ferrell did himself proud on Saturday by landing the winners and one second out of six mounts. L. Jackson, Reed and Chandler were the other winners.

Kenilworth had a lot of bad luck in the opening handicap. He was the favorite in the second race and heavily backed. It was well placed confidence for the gray simply ran away from the field.

MASTER MECHANIC NEARLY KILLED.

While riding in an observation car of the San Francisco Oakland and San Jose Railroad Company yesterday, George Spink, master mechanic of the new road, met with an accident which he believes Mr. Spink will recover. At last reports, Mr. Spink was resting easily and was suffering but little pain. Mr. Spink resides at 508 Walsworth avenue and has a wife and two children.

AID RUSSIAN JEWS.

NEW YORK, November 16. — A movement to have all the wealthy Jews in the country to put aside two percent of their incomes to aid the Russian Jews to come to this country is to be started, according to Dr. Isidore Singer, president of the Zion Educational League. The doctor, who announced his intention at a meeting of the league just held, also said that an attempt will be made to have the \$45,000,000 left by Baron de Hirsch to the Jewish Colonization Association administered in this country in aid of the work. Dr. Singer declared that there is no probability of emancipation for the Jews in Russia under present conditions and that the only remaining possibility lies in emigration to the United States.

Store Opens 8:30 A. M. Monday, November 16th. Store Closes 5:30 P. M.

FURS

They need no argument. This frosty weather has tipped the balance decidedly in their favor. However, it may be said that the creators of fashion have decided that furs are to have greater popularity this season than for many years. In anticipation of their great vogue, Taft & Pennoyer have purchased furs with liberality. The sizes of their orders has brought two results; they are able to offer greater variety and lower prices than other houses.

FUR BOAS

Stone marten boas with six fox tails—\$3.50 to \$5.00 each. Brown marten boas with six fox tails—\$3.00 to \$6.00 each. Real black marten boas with six marten tails—\$6.00 to \$15.00 each. Real mink boas with eight fox tails—\$11.50 and \$13.50 each. Brown fox boas with large bushy fox tails—\$10.00 to \$25.00 each. Gray fox boas . . . . . \$45 and \$57.50 each.

FUR STOLE

Beaver stoles, satin lined, six tails—\$7.50 and \$9.50 each. Wide stoles of imitation mink with six tails—\$9.00 and \$11.50 each. Gray squirrel stoles . . . . . \$12.50 each. Black marten stoles with six tails . . . . . \$13.50 each. Brown fox stoles . . . . . \$25.00 each. Mink stoles . . . . . \$45 and \$57.50 each.

FUR TRIMMINGS

The popularity of furs has created a tremendous demand for fur trimming, particularly the Persian lamb. We show Persian lamb braids in black, white and cream at 65c per yard, and in brown, blue and red at \$1.00 per yard.

Taft & Pennoyer Broadway and Fourteenth

TEAMS PLAY GOOD FOOTBALL.

THISTLES WIN AT IDORA PARK AND HORNETS AT ALAMEDA.

A splendid game of association football was played at Idora Park yesterday afternoon between the Alton Rovers of Oakland and the Thistles of San Francisco. It was a hard fought game and was won by the San Francisco team by the close score of 10 to 0. The ground was in very poor condition because of the rains and it made fast playing impossible.

During the temporary absence of Acting Captain Gilchrist the visitors scored their one goal. The ball was kept in the Rovers' territory for the larger portion of the time and the Thistles showed their superiority throughout. A large crowd was on hand to witness the game. Following was the line-up of the two teams: Thistles—Low, goal; Foster, right fullback; Thorne, left fullback; McKeay, right halfback; Taylor, left halfback; Duncan, center; A. Disher, outside right forward; Smith, inside left forward; Lyden, center forward; B. Fisher, inside left forward; Rintoul, outside left forward; Alton Rovers—Neilson, goal; Callachan, right fullback; Roverston, left fullback; Smith, right halfback; Mathison, left halfback; A. Orrin, center; McKeay, outside right forward; E. Orrin, inside right forward; Churchill, center forward; Daquenne, inside left forward; Bradley, outside left forward.

HORNETS VICTORIOUS.

The Oakland Hornets and the crack Vampires of San Francisco met on the Webster street grounds in Alameda, and the Hornets outplayed their opponents all the way, and won one goal to nothing. The grounds were in fairly good condition in spite of the soaking rains of the few days previous and fast, snappy football was played.

The goal that was a game was made in the first part of the second half. In this half the sphere was for the greater part of the time in the hands of the Hornets. It appeared several times that the Hornets, who grew aggressive toward the Vampires, would win the game. Peterson and Wilding of the Vampires were the men who attracted the attention of the

DRUGGISTS STOP CUTTING RATES.

NEW YORK, Nov. 16. — All three branches of the drug trade—manufacturers, jobbers and retailers—are greatly incensed in the outcome of a movement just inaugurated by several leading manufacturers of medicinal articles to effect price-cutting on patent medicines. For years the practice is said to have demoralized the drug trade, and an effort is now being made to stop it. In some sections of the country conditions have improved somewhat as a result of the anti-cut rate crusade. The plan now about to be tried originated with the manufacturers of proprietors and aims at the control of prices on their goods all over the country. If a retail druggist persists in cutting prices, he will be cut off their goods; and, if necessary to cut off those who are found to be supplying the market. Co-operation by the manufacturers has now been secured and the manufacturers will at once proceed to establish minimum prices for their wares.
